EDUCATION

NATIONAL INSTITUTE OF TECHNOLOGY

B.TECH, GRADE: FIRST CLASS

Tiruchirappalli, Tamil Nadu

Majors in Electronics Engineering

Minors in Computer Engineering

Jul 2019 - May 2023

COURSES

Data Structures and Algorithms

Database Management System

Operating System

Big Data-Analytics

Web Technology

ALPHA SCHOOL

XII CBSE | COMPUTER SCIENCE

Tiruchirappalli, Tamil Nadu

Grade: 95.2% (School Topper)

Apr 2018- Apr 2019

SKILLS

LANGUAGES

Java • Javascript • Yaml

Kotlin • Python • Dart • Go

CSS • C • C++ • Shell

FRAMEWORKS/TOOLS

Flutter • React Native • React

FastAPI • SpringBoot • Docker

Django • gRPC • MySQL

Git • Linux • Android

CERTIFICATIONS

Samsung-PRISM | [certificate](#)

Designathon | [certificate](#)

OPEN-SOURCE

Published a flutter-package which integrates OAuth2 SSO | [pub.dev](#)

Mentored SMDEVS, organisation under DWOc for 2 years | [smdevs](#)

Published a pyspark-MySQL base docker image | [dockerhub](#)

EXPERIENCE

CITI | SOFTWARE DEVELOPMENT ANALYST INTERN

May 2022 - Jul 2022 | Chennai, Tamil Nadu

- Served as an Agile **Data-Engineering** team member under core-Technologies division, worked on Customer-Cash-Transaction feeds module.
- Built a Project-Management-Portal using **ReactJS**, **Python** and **Docker** during the internship training program conducted by Neueda for summer interns.
- Developed a popularity analysis module using **Spark**, which ranks a project based on the number of visits and searches it receives on the portal.
- Implemented a **CI/CD** pipeline to run 2 jobs in parallel to execute tests, checks lint, formatting, build, and then auto-deploy to **Azure** Virtual Machine.

SAMSUNG R&D | RESEARCH AND DEVELOPMENT INTERN

Aug 2021 - Mar 2022 | Bangalore, Karnataka

- Worked and researched under the work-let "Dictionary creation of 10,000 android-app related keywords" for 6 months.
- Completed the work-let with a dictionary of **121000** apps. Used cloud automated **web scraping** for data retrieval.
- Processed the data-set and generated the values of the weight of the keyword with a maximum value of 100 based on its relevance level to the app description.
- Created a **Flutter** app to display the list of top 10 keywords based on the analysed weight related to app functionalities.

PROJECTS

DELTA ENERGY PLUS APP | MOBILE ENGINEER | FLUTTER, DJANGO

Mar 2022 - Jun 2022

- Collaborated with mechanical and energy teams and Designed a **Flutter** app for an **American energy consultation** Organization.
- Implemented automation of AC Temperature of the user using **Geo-location** based weather data via the app, improved energy consumption by 20%.

NITTFEST'22 APP | HEAD OF WEB-OPS | REACT, FASTAPI, FLUTTER

Jan 2022 - Mar 2022

- Integrated **Firebase** push notification with the **Flutter** app to notify festival related details. Used by **5000** students of NIT-Trichy.
- Pioneered a method to secure the Firebase secret files using **PGP** encryption to make the CI/CD pipeline pass without compromising the sensitive datas.
- Dockerized** the applications and hosted using **Nginx** on the **Kubernetes** cluster, making the server scalable and scoreboard data 100% secure.

PRAGYAN PREMIER LEAGUE | SOFTWARE DEVELOPER | REACT, GO

Dec 2021 - Feb 2022

- Optimized the server of the simulation-game with around 1200 users using **Go-routines** for CPU-intensive-algorithms.
- Updated the code-base from ES5 to ES6 format and published in Play Store using Android's **Trusted Web Activity** (TWA) with around 900 installed users.

KAVAL ARANN APP | APP DEVELOPER | JAVA, SPRING-BOOT

Sep 2020 - Mar 2021

- Contributed to a complaint-management-system-based Android application for the **Police Department** Tiruchirappalli, internally used by **100** cops.
- Enhanced the attendance feature, enabled only if the cop is within 500 meters the radius of the target using **Geo-fencing**, which increased the precision
